

hands-on training on skin sensitization assays

KeratinoSens & h-CLAT

09.-10. October 2025

Hamburg, Germany

limited
slots

why you should attend

- Get familiar with the OECD test guideline 442D and 442E.
- Get tips & tricks from KeratinoSens & h-CLAT experts.
- Exchange with other attendees about their experiences.
- Learn how to standardize your cell culture.

who should attend

- Scientists and technicians working in safety testing laboratories.
- Experienced lab staff who need a refresher in assay handling.
- Technicians who are new in the field, to learn hands-on to run the assay.
- Team leads who plan to set-up the KeratinoSens assay in their lab.

Program

Skin Sensitisation hands-on training			
Day I	09.10.2025	Day II	10.10.2025
8:30–9:00	Welcome Coffee	8:30–9:00	Welcome Coffee
9:00–9:30	Welcome & Introduction	9:30–12.30	Keratinosens assay (Luciferase read-out) & h-CLAT qPCR read-out (non-OECD)
9:30–10:00	Keynote lecture		
10:30–11:00	Laboratory tour		
11:00–12:30	Keratinosens assay (preparation of instaCELLs)		
12:30–13:30	lunch break	12:30–13:30	lunch break
13:30–15:30	Keratinosens assay (substance application)	13:30–15:30	KeratiNoSens & h-CLAT evaluation
15:30–16:00	short break	15:30–15:45	short break
16:00–17:30	h-CLAT assay (preparation of instaCELLs and substance application)	15:45–16:15	Q&A wrap up and take home message
~19:00	social dinner	16:15–16:30	closing
